RE: Ground-water Monitoring At The North Mecklenburg Landfill
(Permit # 60-13)

Dear Mr. Gilkerson,

The Solid Waste Section has received your request of September 30, 1996, to reduce the monitoring program to once annually at the North Mecklenburg C&D Landfill. The Solid Waste Management Rules and policies require a minimum of semi-annual water quality monitoring. The North Mecklenburg C&D Landfill is therefore required to continue water quality monitoring at least twice annually.

If you have any questions regarding this letter, please call me at (919) 733-0692, extension 258.

Sincerely,

Bobby Lutfy
